AUTHORIZED DISTRIBUTOR

SHED THE PRESSURE LOSS

with the Series CP-CN-CT-CX Coolpoint® Vortex Shedding Flowmeter

MINIMAL MAINTENANCE

- No moving parts to clog or wear

LONG-TERM STABILITY

- No zero-point shift, increasing application longevity
- Reading unaffected by conductivity, pressure, density, and temperature

VERSATILE FUNCTIONALITY

- Integrated temperature sensing option for an additional sensing parameter
- Lower pressure drop compared to other primary flow elements

EASY SETUP

- Easy to set up and read with menu buttons and a bright LED display
- Selectable alarm states and pulse output for increased application flexibility
